

The George S. Wise
Faculty of Life Sciences
Tel Aviv University

CRCF

THE ROSALIE AND HAROLD RAE BROWN CANCER RESEARCH CORE FACILITY

Get access to advanced technologies & services in a wide range of research areas.

Our experienced and dedicated staff is available for consultation, training & analysis.

Our Service

Confocal Microscopy

Standard & High-content confocal analysis

Electron Microscopy

Our EM unit is fully equipped with TEM, benchtop SEM & samples preparation equipment

Advanced Genomics

State-of-the-art genomic technologies & end-to-end solutions, from library preparation to bioinformatic analysis.

Flow cytometry & live cell imaging

Sterile & pathogen-free-room sorting, FACS & Incucyte available

Biophysics

Protein-protein characterization, Chirascan, AUC & SEC-MALS
